Description

Provide a short description of the event and its activities.

The NECE Festival is an annual event that brings together stakeholders from civil society, politics, academia, media, and culture for an interactive and interdisciplinary exchange of ideas and actions. The festival is held in various European cities and focuses on a specific topic that is highly relevant to civic education

The three-day festival took place from 14 to 16 October and was dedicated to the topic of trust.

Day 1 introduced the theme through panel discussions and plenary formats, setting the scene for the days that followed.

Day 2 offered a parallel programme in three cities: Lisbon, Sintra and Cascais. Participants could choose from a range of formats, including workshops, masterclasses and field trips. In the evening, everyone came together in Lisbon for a get-together in a market hall linked to a local civil society project.

Day 3 focused on civic education and offered formats for exchange, networking and co-creation, such as a project market, workshops, dialogue trainings and a Human Library. The festival ended with a closing keynote followed by a conversation.
